

COVID-19 Medical Equipment Needs

Ventilators

- FDA-approved
- Full scale, critical care use
- ICU or OR capacity
- If foreign made, needs to have adapters for American use (will they work with the United States electrical system?)
- Service plan:
 - Repair guarantee
 - Customer service in the United States
- Machine needs to come with disposables (tubing and filters)

N95 Respirator Masks

- NIOSH certified (https://www.cdc.gov/niosh/nppt/topics/respirators/disp_part/n95list1.html) with NIOSH approval number
- CDC-approved model
- Fluid-resistant
- Non-expired preferably

Facemasks

- 3-ply
- Non-woven fabric

Surgical Masks

- Fluid resistant
- Non-woven fabric
- BFE (Bacterial Filtration Efficiency) of at least 99%"

Faceshields

- Clear material
- Polycarbonate or propionate
- Full coverage or partial coverage
- Foam padding is preferable

Isolation Gowns

- Full 360 coverage (everyday use)

Level 1 or 2 Gowns

- DWR-treated
- Fluid-resistant
- Full 360 coverage
- FDA-cleared is preferable

Level 3 or 4 Gowns

- FDA-cleared is required
 - 510k approval (<https://www.fda.gov/regulatory-information/search-fda-guidance-documents/guidance-premarket-notification-510k-submissions-surgical-gowns-and-surgical-drapes>)
- DWR-treated
- Fluid-resistant
- Full 360 coverage

Gloves

- Nitrile
- Powder-free
- Latex-free
